

This document is a short user guide for the set up and install of the Consentua Demo App.

You will have received an invite to download the demo app onto your device. Consentua demo app is available for iOS and Android.

HINT: For the iOS install it maybe necessary to certify the profile. This can be fixed by going to Settings-> General -> Profiles & Device Management > We Are Base - then verify.

The demo app was developed for two purposes. Firstly as a test for the Consentua widget/plugin that allows developers to seamlessly drop in this Consentua code component into their own app code. Secondly as a method of showing off to prospective customers how Consentua could be used by end users.

It is possible to subscribe the demo app to a specific client in consentua, or to the demo app client which has access to a set of generic consent scenarios.

Current scenarios available on the demo app include:

- Marketing
- Insurance
- Education
- Bike Share
- Mobility-as-a-Service
- Social Housing
- Healthcare
- Hospitality
- Mobile e-commerce

Setup

For the first time of install the following screen is presented:

NB: Default values are not to be used as the service will not work -

November 2017.

The Endpoint URL will likely be the Consentua Test but can also be another Consentua instance (e.g. research or a dedicated customer).

This can be found here: <https://test.consentua.com/>

The Client ID is the Consentua client identity number. This will have been sent to you. It is a unique number for that specific client.

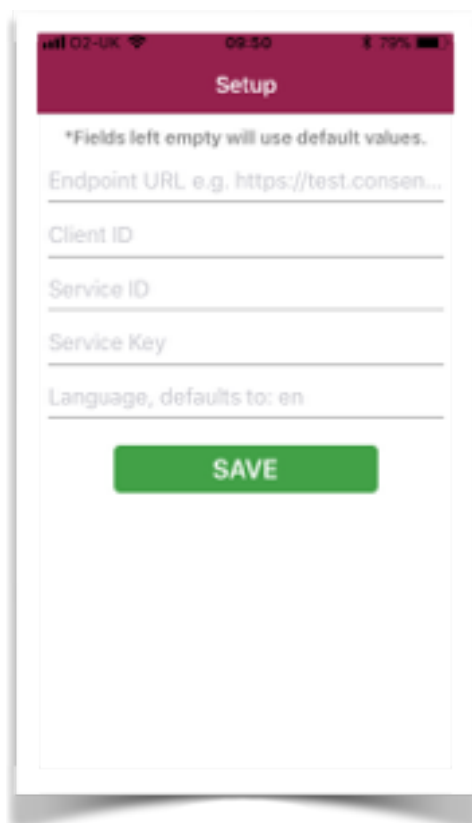

The Demo App Client ID is 2

The service ID is the Consentua provided ID number for a client consent service. This will have been sent to you.

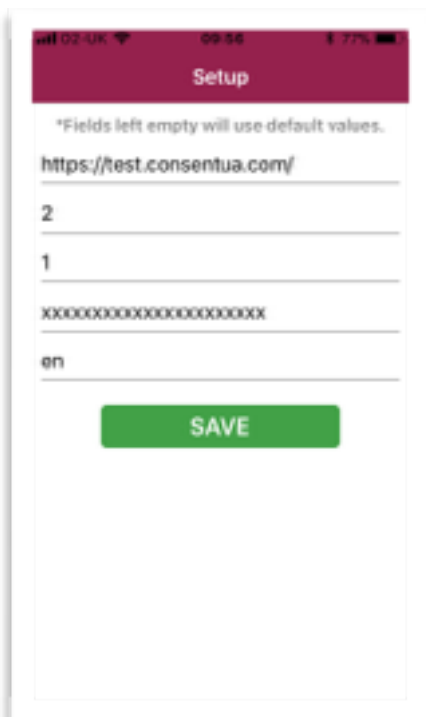

The Demo App Service ID is 1

The Service Key is the token that is provided by Consentua for the above Service ID number. This will have been sent.

Language is as per ISO language identifiers. Default is English (en)

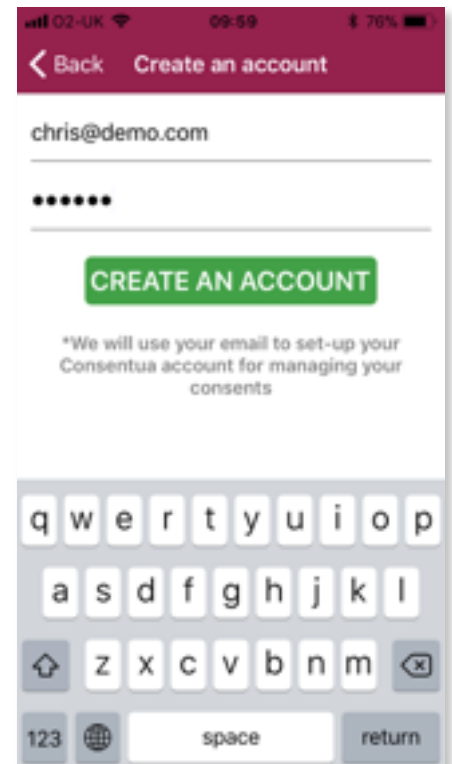

Create an Account

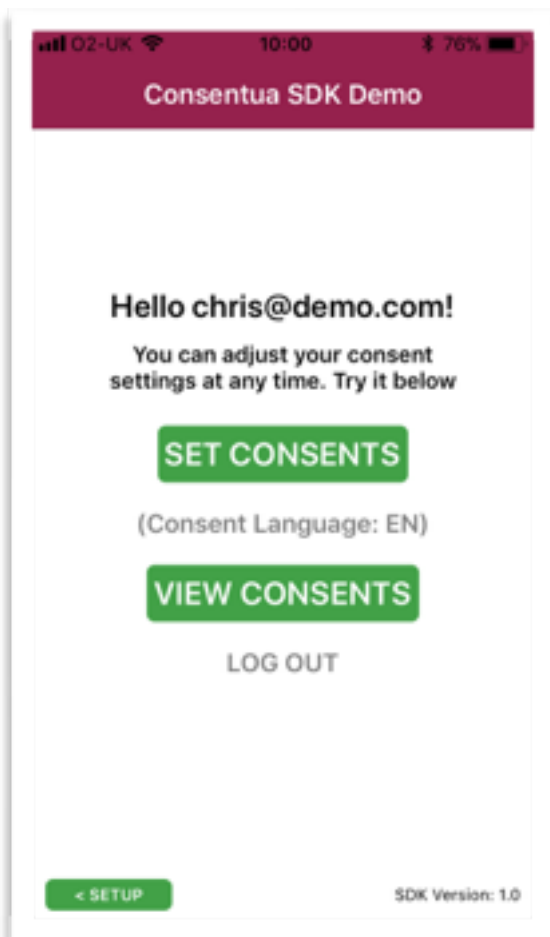

Once successfully logged in the next step is to create an account.

The use of a username and password is not stored, but is used to grant access to the API.

Use your <username>@demo.com
Password: can be any 6 characters.

Set Consents

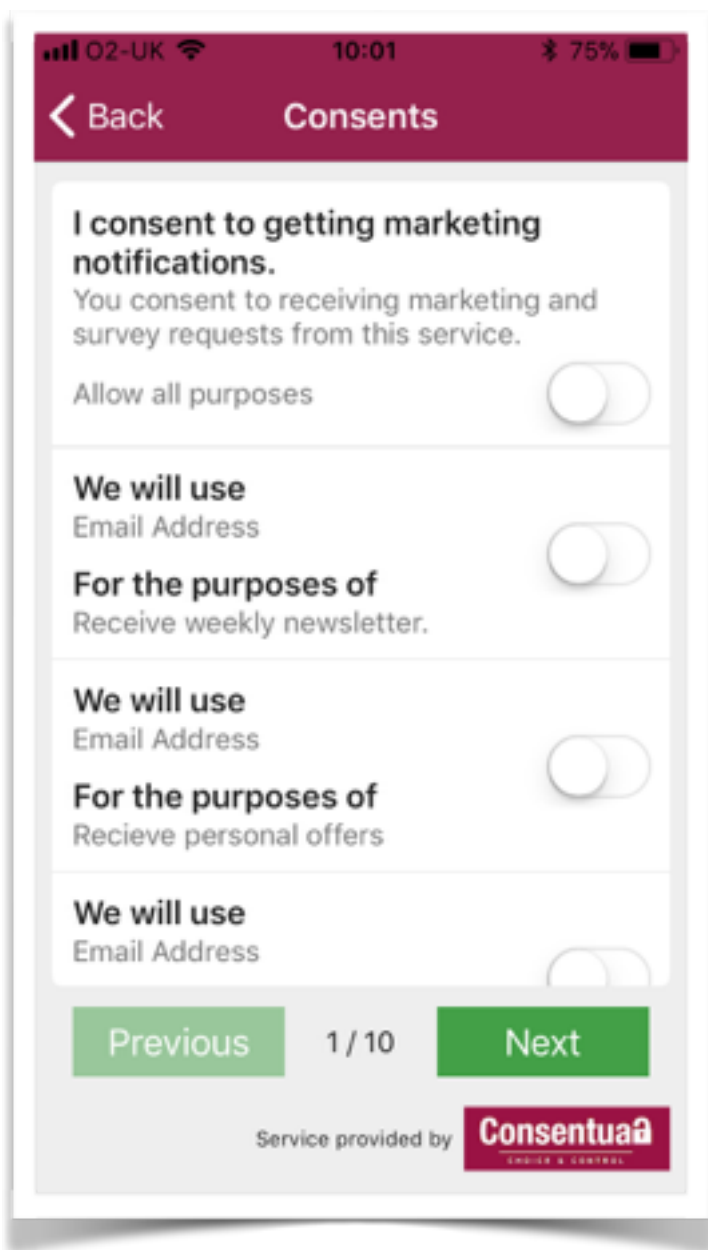

The next step is to set consents. At this point the demo app is now going to make a call to the Consent endpoint and service that was identified in the set up. Retrieve the consent template and display this back to you.

Interacting with Consentua

The user can interact with the consent scenarios that are linked to the consent service. Notice that in the image below there are 10 scenarios that can be viewed.

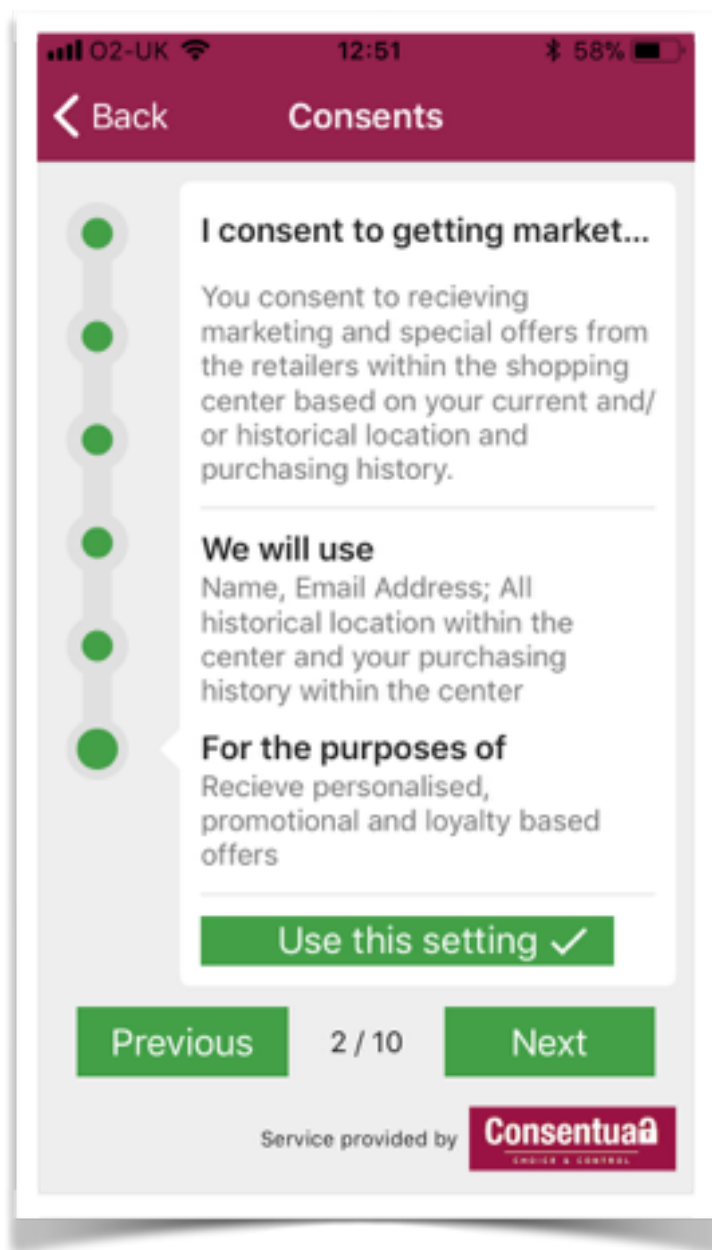

There are two types of consent template view. Binary & Linear.

Binary Consent View

A screenshot of the 'Consents' screen in the Consentua Demo App showing a binary consent view. The screen has a maroon header with a back arrow and the title 'Consents'. The status bar at the top shows 'O2-UK', signal strength, time '10:01', and battery '75%'. The main content area contains four consent items, each with a title, description, and a toggle switch. The first item is 'I consent to getting marketing notifications.' with a description 'You consent to receiving marketing and survey requests from this service.' and a toggle for 'Allow all purposes'. The second item is 'We will use Email Address For the purposes of Receive weekly newsletter.' with a toggle. The third item is 'We will use Email Address For the purposes of Recieve personal offers' with a toggle. The fourth item is 'We will use Email Address' with a toggle. At the bottom, there are green buttons for 'Previous', '1 / 10', and 'Next'. The footer shows 'Service provided by Consentuaa ENGINE & CONTROL'.

Linear Consent View

A screenshot of the 'Consents' screen in the Consentua Demo App showing a linear consent view. The screen has a maroon header with a back arrow and the title 'Consents'. The status bar at the top shows 'O2-UK', signal strength, time '12:51', and battery '58%'. The main content area contains three consent items, each with a title, description, and a green progress indicator on the left. The first item is 'I consent to getting market...' with a description 'You consent to recieving marketing and special offers from the retailers within the shopping center based on your current and/or historical location and purchasing history.' The second item is 'We will use Name, Email Address; All historical location within the center and your purchasing history within the center'. The third item is 'For the purposes of Recieve personalised, promotional and loyalty based offers'. At the bottom, there are green buttons for 'Previous', '2 / 10', and 'Next'. The footer shows 'Service provided by Consentuaa ENGINE & CONTROL'.
